Thermoteknix Appoints New UK Sales Manager

Thermoteknix UK Sales Manager at IFSEC Global Security Trade Fair at the NEC

Thermoteknix announce the appointment of Peter Harvey as UK Sales Manager for thermal imaging products. Peter brings extensive knowledge of infrared and IR applications and comes to Thermoteknix with past experience from Raytek and Land Infrared. This year Thermoteknix have launched Condition RED[®], an innovative route based integrated IR camera and database software system for Predictive Maintenance, and, MIRACLE[®] a range of miniature high performance infrared cameras which Thermoteknix have developed for a wide range of industrial, surveillance and military markets. Further new products are planned for release later this year and the Company are continuing to recruit to expand their engineering and electronics divisions. The appointment comes as a direct result of Thermoteknix' continued growth and as the company prepares to move to larger premises to accommodate more staff and manufacture of MIRACLE[®] cameras.
